David Kline, Project Coordinator
Superfund Section
Environmental Response Division
Michigan Department of Environmental Quality
Knapps Building
P.O. Box 30426

SE-5J

Dear Mr. Kline:

This is sent in response to the May 5, 1996 correspondence which requested the addition of the Albion Sheridan Township site to Multi-Site Cooperative Agreement (MSCA) V995258-01 for PRP Oversight activity.

This letter serves to approve the request to add the Site to the MSCA. This action has been approved by the Remedial Project Manager for the Site.

We are in receipt of the application, dated May 10, 1996 which requests funding for fifteen sites under the MSCA for PRP Oversight work. This application included a request for \$25,000 for the Albion Sheridan Township site. This application is currently under review at the Agency.

If you have any additional questions regarding this letter, feel free to contact me.

Sincerely yours,

Alan Altur
Michigan Project Officer
Superfund Division
